Sponsored by the Hampton Roads Chapter of the
Virginia Building & Code Officials Association

Communication on the job site is one of the most important aspects of a successful construction project. Spanish In-A Pinch conducted by 2nd Language Success teaches the basic “conversational” Spanish that allows for “in-a-pinch” communication. The program utilizes a VisualPhonetic™ System that allows participants to learn and recall key Spanish words by association with English language terms, pronunciations, and visual cues. This is coupled with field “cheat sheets” (transaction flashcards) that allow you to communicate basic request and other verbal exchanges.

The three hour program will be offered from 8:30 am until 11:30 am or from 1:00 pm until 4:00 pm. Participants will be provided with supporting handouts and two of the laminated field transaction cards that fold to pocket size. The program will cost \$35.00 per participant and will include all instruction, handouts, and field cards.

Please register early! Class size is limited to 150 participants per session. Please note your preference for the morning or afternoon session on your returned registration form. We will attempt to accommodate each request. Due to anticipated demand for this program, requested session times will be accommodated on a space available basis as registrations are received.

Please complete one registration form per attendee:
